Material Type

Wool

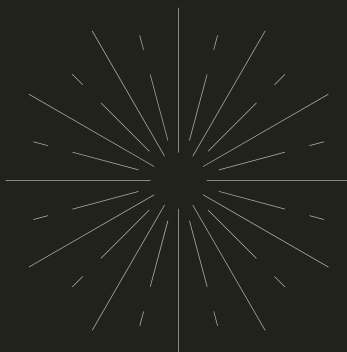

Wool is a natural fiber sourced from sheep and other animals. It is known for its warmth, insulation, and durability. Wool is commonly used in sweaters, coats, and winter garments.

Cotton

Cotton is a natural fiber known for its breathability, softness, and comfort. It is versatile and widely used in a variety of clothing, from t-shirts and denim to dresses and bedding.

Tips And Tricks

Want to know how to mix and match your outfits without having to buy new ones?
Check out how on this page!

1. Mix Colors

You can play with the colors of your clothes to create a different look. For example, you can choose two to three colors that you will wear as the base color, for example black, blue, and pink.

From these colors then you can combine clothes, black pants with a blue top and black pants with a pink top. So you can get a different outfit look.

2. Using Outer

With an outer, you can make your outfit a different look. You can use outers such as cardigans, blazers, or shirts as an addition to your outfit so that it can create a new and different look.

3. Play with Proportions

You can utilize the proportions of the clothes that match what you want to wear. You can combine oversize tops with tight pants or vice versa so that your outfit looks balanced and looks attractive.

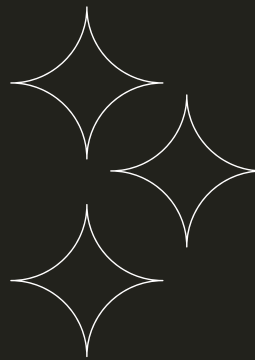

Customized uniform

School Unifrom

Nursing Unifrom

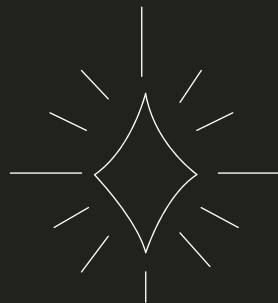

Worker Unifrom

Collarless

Instead of a collar, the neckline of the garment is typically finished with a clean, seamless edge.
